

# Insulating Coverboard Solutions by ROXUL<sup>®</sup>

## MONOBOARD<sup>®</sup> & TOPROCK<sup>®</sup> DD

ROXUL MONOBOARD and MONOBOARD PLUS are 1" thick insulation with an optional asphalt compatible facer. TOPROCK DD and TOPROCK DD PLUS 2" are ideal products to use as a cover board, by providing a thermally resistant coverboard for all applications

By using an insulated coverboard you can reduce the number of layers and improve efficiency on the roof.

ROXUL MONOBOARD & TOPROCK DD PLUS are the ideal cover boards to use on your next project. Save time, improve thermal performance, reduce material handling, and win more projects.

ROXUL products are dimensionally stable, non-combustible, water repellent, and easy to fabricate on the job around any penetration

ROXUL MONOBOARD & TOPROCK DD PLUS provide additional thermal values (1" R4, 2" R7.6) not found in traditional cover boards.

### Tapered Packages Available

ROXUL MONOBOARD and MONOBOARD Plus are available in Tapered packages in slopes of  $\frac{1}{2}$ ",  $\frac{1}{4}$ " and  $\frac{1}{8}$ " slopes to meet your design's needs.

ROXUL Tapered Packages can also be tapered directly down to zero!

## Choose Plus for Added Benefits

TOPROCK DD® Plus has a bitumen coating for torching and mopping to the product.

This product is designed specifically for these applications to create a better adhesion between the membrane and the insulation.

## ROXUL® Saves You Money

By reducing the number of layers on your next job, you can reduce the amount of time on each job, improving efficiency and allowing you to move on to the next project faster. Reducing labor costs also allows you to compete more effectively and win more projects.
