

If the cream always rises to the top,
then guess who
should already be on your roof.

The Most Trusted & Respected Roofing Company in the U.S.

North American Roofing

The Most Trusted & Respected Roofing Company in the U.S.

GET TO KNOW US. BY THE NUMBERS.

Commercial roofing companies sure can talk. But at the end of the day, you need a reliable roofing partner that does what they say, can back up their claims of expertise with facts, and offers a long track record of success even the competition envies. That's North American Roofing. There's a reason we're "The Most Trusted & Respected Roofing Company in the U.S." In fact, there are several.

North American Roofing has been a pioneer in commercial single-ply roofing **SINCE 1979.**

33 YEARS AND COUNTING

We've been family-owned and operated for **THREE GENERATIONS**

We've installed and serviced more than **750,000,000** square feet of roofing on more than **19,000** facilities in

ALL 50 STATES, PUERTO RICO AND THE U.S. VIRGIN ISLANDS.

Today, we're the **3RD LARGEST COMMERCIAL/INDUSTRIAL ROOFING COMPANY IN THE U.S.**

Your trust is the most valuable commodity on the planet. Keeping that our single focus has built literally **TENS OF THOUSANDS** of roofs, and our own success.

NUMBERS DON'T LIE. AND NEITHER DO WE.

ROOF INSTALLATIONS

He's a dedicated, motivated individual looking for a relationship.
With your roof.

It's not just people who need people. Commercial roofs need relationships, too.
That's why we don't presume; we survey. We don't suggest until we analyze. And all the while,
we keep you informed so that your roof isn't treated like just another roof; it's a relationship. Let's build one together.

FULLY ADHERED

MECHANICALLY FASTENED

BALLASTED

HERE'S HOW IT STARTS.

Our team of experts arrives. They do a free comprehensive survey of your roof. They take photos. They compile them into an existing conditions photo report, then offer you a value-engineered solution that fits your:

 BUDGET

 ENERGY CONCERNS

 SUSTAINABILITY STRATEGY

 BUSINESS PRIORITIES

A SAMPLING OF WHAT WE CAN BUILD AND INSTALL FOR YOU.

-  Single-ply roofs (TPO, PVC, EPDM)
-  Elastomeric coatings
-  Metal roof systems
-  Modified bitumen/built-up roofs
-  Rooftop solar/photovoltaic systems
-  Rooftop gardens/vegetative systems
-  "Cool" roof systems
-  Insulation packages
-  Roof waste recycling program

Rhinobond. It doesn't just sound tough. It is.

This insulation and attachment system for TPO and PVC membranes provides extra protection from wind and moisture. How? It's a non-penetrating fastening solution that more evenly distributes the wind load. And because this factory mutual-approved system doesn't create points of entry in your roof, uses fewer fasteners and seams, and offers fewer hassles to you, it's both tough and beautiful.

Authorized installer for:

SERVICE AND REPAIR

ROOF GUARD™
PREVENTATIVE MAINTENANCE

Aging infrastructure. Careless foot traffic. An irate Mother Nature.
Hello, old friends. It's time to do battle once again.

Emergency roof leaks left unattended don't go away—until your roof goes. Call the trusted experts of North American Roofing at 866.567.2064 to schedule your inspection and repair. Our pledge to you includes:

-  A guaranteed response to your call within 48 hours.
-  A one-stop contractor across all cities and states in the U.S.
-  A one-year warranty on all labor/construction.
-  A complete inspection of your entire roof, not just the affected area.

NO MATTER WHERE YOU AND YOUR ROOF ARE, WE'VE GOT YOUR BACK.

We have repair teams—highly trained and exceptionally professional, we might add—spread across the nation. So when you call about a roof leak or a repair you need, you don't wait. You get fast service. Guaranteed.

SERVICE THAT SETS US APART.

After our repair team arrives, that's when you really start to notice the difference. Because you won't notice a difference in your workflow. Our repair and service style makes sure your productivity remains uninterrupted. We can provide documentation to help file insurance claims. And when the damage is repaired, we'll help you rebuild with a better plan. And we can provide a one-year workmanship warranty on everything we repair. See? You and your roof are already feeling better.

**Leak Service:
866.567.2064**

EVERY ROOF NEEDS A ROOFGUARD. (WE MIGHT BE BIASED.)

RoofGuard is a regularly scheduled preventative maintenance program. It's there, quite literally, to protect the considerable investment you've made in your commercial roof. With it, your roof will receive annual and semi-annual inspections, preventative maintenance repairs, and a one-year workmanship warranty on everything we do.

ROOFGUARD™ LITE

RoofGuard Lite is a preventative maintenance package tailored towards providing a detailed cleaning and inspection program for all budgets.

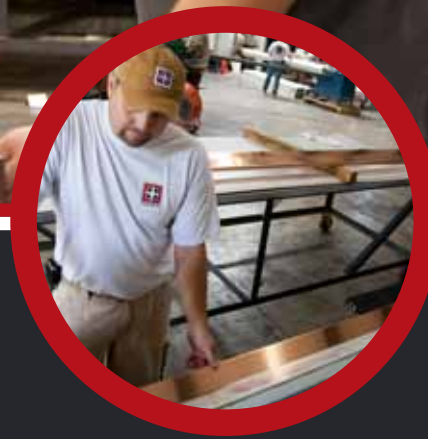

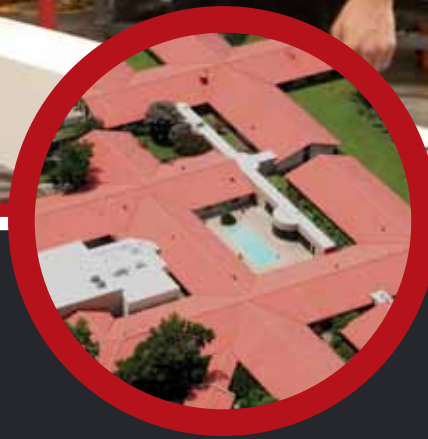

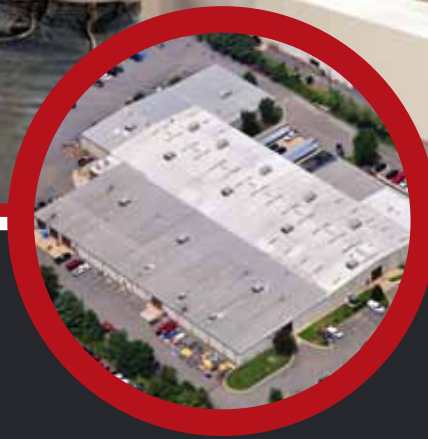

-  Complete Comprehensive Inspection
-  Perform Minor Preventative Maintenance
-  Provide In-Depth Report

WHAT DOES ROOFGUARD COVER?

-  Double the life of your roof system
-  Keep your warranty intact
-  Receive priority leak response
-  Keep gutter clean and debris-free
-  Reduce leak impact and severity
-  Prevent trapped moisture and mold growth
-  Defer capital expenses and proactively budget
-  Avoid production/operational delays

ROOFING SERVICES

SOLAR SIMPLICITY

WE'RE INTO METAL.

Our ES-1 Certified metal facility fabricates hundreds of thousands of custom roof edge metal each month. Bully for us. But the benefit to you is our use of top-of-the-line materials and custom-made solutions for your roofing vision. Our metal is both made by us and shipped to our jobsites, where it becomes part of your commercial roof solution. Have a sheet metal project? Test us. But you sure can't beat us.

Metal roofs • Copings • Downspouts • Wall panels • Gutters • Soffits

HERE'S AN IMPORTANT QUESTION:

What does the average solar company know about commercial roofs, anyway?

Any roof-mounted solar panel or solar PV system should reduce your energy and operating costs, provide you some reasonable breaks on installation through government incentives, and offer turnkey service, maintenance, and upkeep. So why don't they? And what happens when a great solar system is installed poorly, or on a roof with serious engineering integrity issues? Welcome to the North American Roofing solar difference: Because we understand every aspect of an integrated roofing solution, we can deliver every aspect of an integrated roofing solution.

THIS IS TURNKEY SOLAR FROM NORTH AMERICAN ROOFING,
not some trendy solar company. And that's a HUGE difference.

An innovative solar system on a badly built roof is a disaster waiting to happen.

Our roof and solar experts have worked with both enterprise-level businesses and small-scale operations to find "right-fit" solutions.

With "solar simplicity," we can consult, finance, find the right solution, install, maintain, and deliver the ROI you need. From one source. Us.

Our legendary RoofGuard Program. Now with SPF.

ROOF GUARD™ SOLAR

The same protection and maintenance program we've built our national reputation on can be purchased for commercial roofs with solar systems. We even offer customized tiers for just the right fit.

"SOLAR-READY" ROOF SYSTEMS
for now, or later.

Whether you're ready to seize the savings from solar today, or in 10 years from now, make sure your roof system is designed and maintained with that in mind. We deliver "solar-ready" roofing solutions so that when you're ready financially, the roof's ready physically.

SINGLE-PLIES/ROOFING SYSTEMS

COATINGS

When weather, time, and money aren't on your side, coatings are a smart option. Offering high reflectivity that can increase your building's energy efficiency, coatings can also be warranted for 5-10 years. Beat back the sun and slow your roof's aging process with this proven solution from North American Roofing.

METAL

This is the discerning building owner's choice. Offering high quality, excellent durability and aesthetics ideal for areas of high visibility, metal can be used to build a long and beautiful life for your commercial roof. And, unlike simple resellers, we have our own fabrication facility, offering custom solutions for your coping, gutters, trim and full sheet panels. You specify the color, gauge, finish and metal type, and we handle the rest.

MODIFIED/BUR

Modified bitumen and built-up roof systems offer high durability, especially in high traffic areas or when combined with smaller roof areas with a high density of service equipment. Our cold-applied (adhesive) anchoring means higher quality and better health and safety. And our multi-layer systems offer puncture resistance and a warrantable roofing system.

SINGLE-PLIES (TPO, PVC, & EPDM)

SINGLE-PLIES. A SINGLE-MINDED FOCUS OF OURS.

Don't let the name fool you. Any commercial roofer knows single-ply is really three distinct roofing membranes: TPO, PVC, and EPDM. We don't mean to brag (or maybe we do), but nobody understands these membrane systems, how to properly install them, and how to maintain them over a long life quite like we do.

750 MILLION SQUARE FEET OF INSTALLED SINGLE-PLY. ON 19,000 DISTINCT FACILITIES. AND ALL DONE WITH 0% BULL.

TPO:

- TPO is the most installed roofing membrane around.
- Its surface reflectivity is a great choice for those going green or seeking LEED certification.
- We install all major brands of TPO.
- Our LaserWeld system offers an ENERGY STAR rating, making it environmentally sound and fiscally intelligent.

PVC:

- We've done PVC installation for 30 years.
- PVC's white surface is similar to TPO in that it cools and provides energy savings.
- We only partner with proven PVC manufacturers.

EPDM:

- EPDM, or rubber-based roofing, offers a good assortment of versatility, affordability, and environmental advantages.
- We were the very first approved roofing contractor for Firestone Building Products.
- And we're in the top 1% of commercial roofing contractors who install EPDM.

QUALITY

Put your trust in the contractor that major manufacturers trust most.

SAFETY

STRATEGIC ACCOUNTS PROGRAM

STRATEGIC ACCOUNTS PROGRAM. TAP THE STRENGTH OF OUR PARTNERS.

Multi-site facility owners have a lot of assets to manage. You're required to keep multiple components of your commercial roofs humming along at maximum efficiency. That can sometimes mean many relationships with many different vendors and companies. Our Strategic Accounts Program offers you a streamlined model that keeps things simple, an approach oriented in our long history of excellent customer service. We put the best of our research, analysis, communications, and people to work for you, offering alliances and partnerships with the very best in their respective businesses. That means you get exceptional service all the way down the line.

SAP benefits include:

- 🕒 24/7 priority emergency response
- 📁 Custom web portal
- 💰 National pricing structure

SOME OF OUR STRATEGIC ACCOUNTS INCLUDE:

- Michelin • Toys“R”Us • General Electric • AMF Bowling • The Home Depot • CarMax • FedEx • Campbell’s Soup
- PepsiCo • Abbott Labs • Kraft • Southeast Frozen Foods • REIT Management • US Cold Storage • Kroger
- International Paper • Guardian Industries • Fluor • Tyson Foods • Simon Property Group

THE SCIENCE OF SAFETY.

A safe job site should be as important to you as it is to us. We value our employees as much as you value yours. So while some think our processes and procedures unnecessarily obsessive-compulsive, there’s a method to our madness: Our safety and quality records aren’t just good—they’re the industry standard.

COMPANY-WIDE SAFETY PROTOCOL

- Daily Inspections and In-House Independent Inspections
- Third Party Inspections at Completion
- Client-Specific Custom Safety Plan Availability

SUPERIOR OSHA APPROVED CURRICULUM

- 10-Hour and 30-Hour Construction Outreach Training Programs
- All roofing crews receive OSHA Construction Industry Outreach Training
- We 10-hour train at all levels—from the installer to the Project Manager

SAFETY FIRST BY THE NUMBERS

- Average modified is I.O, while ours is nearly 50% lower
- Consistent process improvements have led to a steady decline in incidents since 2000
- Bureau of Labor Statistics Incidents Reports show consistently lower incident rates than the national average
- We now lead the industry in commercial & industrial roof safety

KEEP THE EXTRA OSHA ATTENTION AT BAY

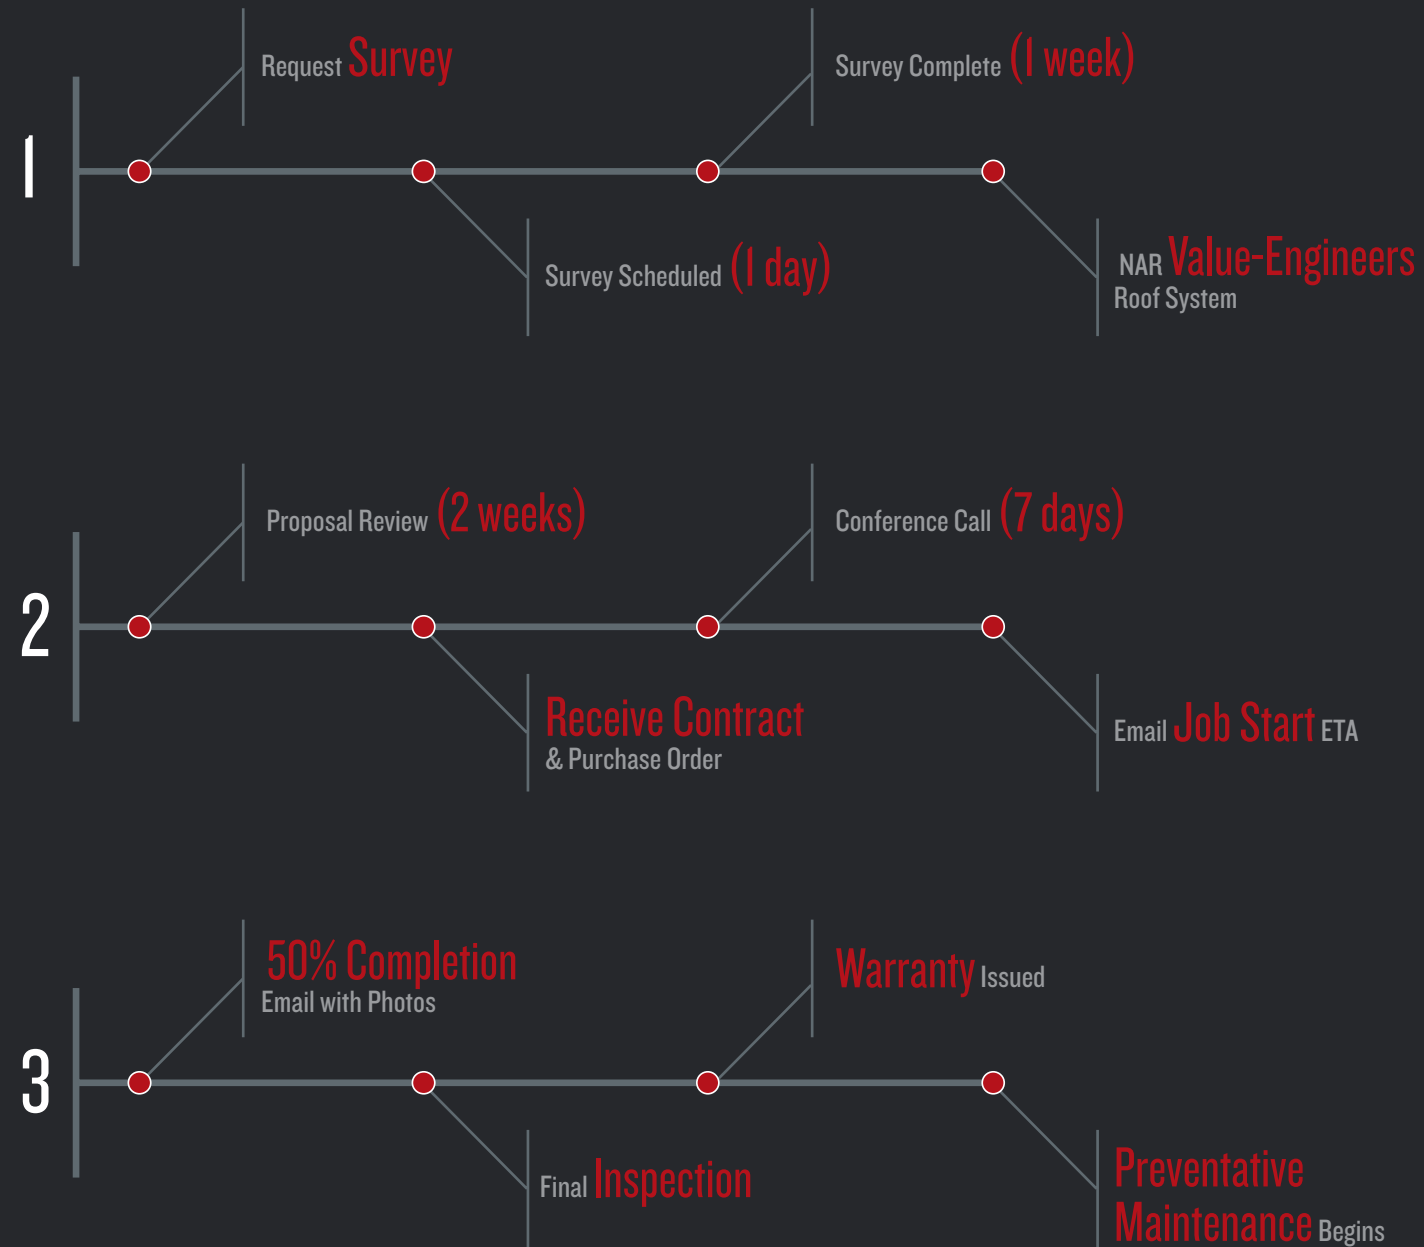

Fail a few safety inspections, and you don’t just lose money, time, and productivity; you can lose business licenses and invite lawsuits, not to mention extra and unwanted attention from OSHA and similar organizations. Make your commitment to safety by sharing ours.
